DEMOCRATIC CONVENTIONS.

The Ohio, Iowa and Mississippi Democrats have been holding their State Conventions during the past two days. In Iowa two of the Greenback nominees were endorsed. Mississippi returns thanks for the appointment of Senator Lamar as a Cabinet officer, and renominates the present incumbents. Ohio again puts Hoadley to the front to again try and defeat Foraker.

The greatest interest attaches to the position assumed toward the President, and Iowa and Mississippi have done what they should, the former saying "that in President Cleveland the country has found a man of solid judgment, conscientious integrity, unswerving fidelity, patriotism and courage equal to that of Andrew Jackson; and in his efforts for economy, for exposure of the criminal acts of the Republican party and its officers, for his unflinching firmness in dealing with the cattle kings, for his zeal in behalf of reform, for his efforts to restore public lands to settlers, for his efforts to enforce the law against polygamy, and for his constant watchfulness of the public welfare he merits the unswerving support of his party," while the latter declares "that in the policy of President Cleveland, so far as disclosed, we see not only nothing to condemn, but everything to inspire confidence in his wisdom, integrity and statesmanship, and we hereby express our unqualified endorsement of the same." We have not yet seen the Ohio idea.

FOUND HIM.

We rather think the subject of the President's letter has been found in the person of Hugh J. Brinker of Warrensburg, Mo. He was appointed to some Idaho Judgeship through the influence of Senator Cockrell. Cockrell had Brinker appointed simply to get him out of the way. Brinker had publicly announced himself as opposed to Cockrell's re-election, and was going to run for the Legislature where he intended to make a fight against Senator Cockrell. He is from Cockrell's own town. The latter got him appointed, but it is not believed that the appointment can be confirmed. It is understood Cockrell said to Brinker before he got the appointment that he must get as wide an endorsement as possible. Brinker has just about such endorsements as suggested in the correspondence.

The eighteenth annual number of Poor's Manual of the railroads of the United States for 1886 is now ready. This compilation has long been regarded as standard authority on this important subject. The matter fills 1,200 pages. There are 123,379 miles of railroad in the United States, which is nearly half of the total mileage of the world. The statistics have been compiled with care, and embrace reports from some roads which cannot be found elsewhere.

Only three of the Eastern war Governors are left, and they are Curtin, of Pennsylvania, Kirkwood, of Iowa, and Sprague, of Rhode Island. The rest have passed over the river, victims, many of them, to the intense strain of those eventful days.

The remarkable breadth of General Grant's forehead was particularly noticed by those who saw him after death. It is believed that his head approached very nearly in size to that of Webster.

Ex-Vice President Wheeler is said to have lost all his relatives by death within the past ten years, but bait is still to be had, and he remains cheerful.

Senator Edmunds thinks England will have to adopt a tariff policy.

The cost of carrying a bushel of grain from Chicago to New York by lake and canal was, in 1868, twenty-five cents, and by all rail forty-two cents. In 1884 these figures were reduced to eight and fourteen cents respectively.

The Distribution of Silver Dollars.

A prominent official of the Treasury Department said Wednesday, in regard to the complaint of bankers and mining men of Salt Lake City against the recent order regulating the distribution of silver dollars, that the order in question was made necessary by the great expense attached to the transportation of that coin from one point to another. As an illustration, he said: "It would cost over \$8 to ship 1,000 silver dollars from San Francisco to Salt Lake City, and as much more to ship it back, which expense would deprive the Government of the entire profit realized from the coinage." The difficulty at Salt Lake would, in the official's opinion, be averted if the bankers were willing to accept fractional silver coin instead of standard silver dollars. The former would be delivered to them at their place of business without delay and without expense to them, and would answer all the purposes of the standard dollars. He said, further, that the efforts of the present administration to promote the circulation of silver coin are meeting with great success, especially in the case of subsidiary coin, which, until the present movement began, was wholly unavailable and dead weight.

Politicians in New York.

The New York Times says of the Democratic committee meeting at Saratoga to choose the time and place of the State Convention: Among the politicians already gathered at Saratoga, the anti-Hill sentiment seems to be altogether predominant. The committee, as a whole, is undoubtedly opposed to his nomination, on the all-sufficient ground that he would be a weak candidate whose election would be more than doubtful. The County Democracy men make no secret of the fact that ex-Mayor Cooper is their candidate and if they succeed in uniting the anti-Hill sentiment in his support his chances will certainly be good. The Republicans in this city by no means are seriously affected by last year's defeat. Some of the district leaders lost a few places in the Federal and city service, but they and their colleagues intend, from present indications, to make the greatest kind of contest this Fall. If the Republicans of the State will nominate a good, clean candidate for Governor, he will be supported by both what are known as the machine and anti-machine men. Nearly all the Republicans favor holding a convention after the Democratic Convention. It is too soon to estimate the chances of the proposed candidates.

Scarcity of Silver.

Superintendent McCurdy, of the Paradise Valley Mining Company, sent to San Francisco recently for \$1,000 in silver for change. Such is the scarcity of silver that every dollar of it would have been taken in the village of Paradise in exchange for gold, before it reached the mines. There is not a town or mining camp in Nevada in which silver is not comparatively scarcer than gold. If the Secretary of the Treasury could be made to understand this fact he might possibly be prevailed upon to pay a part of the salaries due Federal officials, and the bills of Government contractors in silver, and thus get enough of that coin in circulation to meet the requirements of the public.

Cleveland's Removals and Civil Service.

Gen. Logan to a Tribune correspondent said: "It is fashionable to say the Administration is doing fairly well in coming up to the expectation of Civil Service reformers; yet in one single day it changed 200 Federal officers to make room for partisans. History has never heard of the like before. When Lincoln came into power he had Democrats in office to deal with. Cleveland has removed more officials in a month than Lincoln removed in a year."

A Decrease in Immigration.

The number of immigrants landed at Castle Garden since the 1st of January is about 30,000 less than during the corresponding period of last year. The decrease was most marked during the four months of this year. There was quite a marked increase in Scandinavian immigrants.

The "Hub" Excited.

A New York Sun special from Boston of August 18th, says: There arrived in this city yesterday morning by the steamer from Charlestown, Prince Edward's Island, Harriet McKinnon. Her sister was to meet her on her arrival. The young girl waited until 9 A. M. when, her sister not appearing, she went ashore. An elderly woman accosted her, and after some conversation they left the wharf together, since which time nothing has been heard of the girl. This is the first case of abduction that has attracted public attention, but it has been rather a customary thing for the boat on its arrival to be met by women who seem to seek out young girls and unprotected female passengers, and engaging them for "house work" drive off with them. The stewardess and deckhands on board the boat, knowing of the dangers overshadowing young women passengers, had warned Miss Harriet not to leave the boat till her sister arrived. It is announced that within two weeks a procuress was stopped on the way from the boat with two young girls. Her victims were liberated. They did not know of their danger, and were simply going to work, as they thought, in a large hotel. Harriet McKinnon was within one month of being 15 years old, but her plump, robust figure gave her the appearance of being 18. A general alarm has been sent out, advertisements have been inserted in the papers, and every effort is being made to rescue her.

Stevenson's Private Secretary.

Mr. Haynie, of Bloomington, will be a sort of private secretary to First Assistant Postmaster General Stevenson. He will not succeed Mr. Marr, who is the Chief Clerk, and he will not displace anybody. Mr. Marr entered the Postoffice Department when Andrew Jackson was President and Major Barry was Postmaster General. More than 44,000 Postoffices have been established in the country since Mr. Marr entered the Department. He comes to the office every day, but he is very old and feeble, and he performs absolutely no duty. He is unable even to sign the papers that pass through his office, but prints his autograph with a hand-stamp. The salary of the office is \$2,000 a year, but a congress of politicians is not slow to recognize the transcendent abilities of a man who has been able to hold on to his office through every Administration from Andrew Jackson's first term till the present day, and for several years it has added \$500 to the salary of the office while it should be held by Mr. Marr. The old gentleman is highly esteemed by everybody in the office, and there is no disposition to disturb him.

Southern Pacific Earnings.

A condensed statement of the Atlantic system of the Southern Pacific Company shows the earnings as follows: Total gross earnings of four lines, including the Galveston, Harrisburg & San Antonio, Texas & Northwestern, Louisiana & Western and the Morgan line, were \$3,994,000 being an increase of \$434,000 as compared with the corresponding period of the preceding year. The net earnings for the same time were \$1,511,000, an increase of \$567,000.

Ex-Senator Slater Heard From.

Ex-Senator James H. Slater in a card denies that he wrote a letter to President Cleveland concerning certain judicial appointments which called forth the President's now famous reply. He indorses Cleveland's course in the matter and condemns the indiscriminate signing of petitions for office-seekers.

SONS OCCUPYING THE SENATORIAL SEATS OF THEIR FATHERS.—Senator Colquitt has furnished the first instance in the history of Georgia where the father and son represented the State in the senate of the United States. Such occurrences are very rare. There are only three on record. They are those of Senators Bayard, Don Cameron and Colquitt. The Bayards have represented Delaware in the Senate without interruption for three generations. Don Cameron took his father's seat. There was thirty years between Walter T. Colquitt and his son in the Senate.—Savannah, Ga., News.

INDUSTRIAL AND BUSINESS ITEMS.

Shirts are made in New York for 2½ cents each.

Chicago now has twenty-seven miles of cable-car tracks.

One thousand bushels of onions have been grown on a single acre of ground. The grain crop in this country the past year is credited with being the largest ever raised.

One dollar a cord is the price at which pine wood is being sold, including delivery, in Athens, Ga.

The four million and odd farms in this country are estimated at a total value of \$10,197,006,776.

The cost of disinfecting rags will increase the cost of paper from a quarter to a half cent per pound.

The present Summer is the dullest the Atlantic steamship companies have experienced for twenty years.

The old moss found more than a foot thick in various parts of Sweden proves an excellent material for paper-making.

Only three Wisconsin railroads earned dividends last year, according to the report of the Railroad Commissioner of that State.

Iron and brass mills in Ohio are starting up, and there is a more favorable outlook in the metal trade than has existed for many months.

Over 1,000,000,000 cigars a year are made in New York State, and Pennsylvania, Ohio and Illinois make, respectively, the next largest numbers. There were in the whole country 3,500,000,000 made last year.

The bone market, along with other "industries," is greatly depressed. Still, a ton of ordinary bones is worth about the same as a ton of American pig-iron, while a ton of really first-class bones is worth five times as much.

Rocky Mountain squirrels, which are considerably larger than the ordinary American squirrel, with rich golden brown fur and silver-gray heads, are in demand for shipment to England, where they are valued at \$50 per pair.

The "Sun" on Mugwumps.

(New York Sun.)

Some good-natured New York Republicans with a feeble comprehension of the idiosyncrasies of the Mugwump mind have proposed to give the Mugwumps the nomination for the Lieutenant Governorship, and so lure them back into the Republican fold. As was expected the Mugwumps vociferously declined in advance. They are indignant that such a low price should be set upon them. They expect to fetch a good deal more than it has as yet occurred to the Republicans to think of offering. The Lieutenant Governorship, indeed! A fig for the toy. If the Republicans really wish to kill the fatted calf for these gentle secessionists, they've got to pick out a bigger and better fatted one. The Mugwumps are supposed to be hard to please, but if the Republicans really want them, there is a simple way of getting them. Make the whole Republican ticket Mugwump. The Mugwumps may come a little high, but perhaps the Republicans have got to have them.

Cleveland is Boss.

Washington correspondents affirm that Mr. Cleveland is completely in the hands of Daniel Manning and his private secretary, Lamont.—Boston Post.

The Boston Post does well to laugh at this empty chatter. There has never been a President—even Lincoln—who was so much the master of his own house as President Cleveland. He rules his Cabinet, while his Cabinet never rules him; and as for his private secretary—well, he is a clever and useful man, but he isn't the boss by any means. The President is entitled to all the credit that belongs to the administration.—N. Y. Sun.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-awf-lyr

Soap-mac-1-ty.

It stands unrivalled. San Francisco Soap Co.'s Pale Savon for washing, and all household purposes, is the best and most economical manufactured.

MISCELLANEOUS.

This powder never varies. A marvel of purity, strength, and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, stum or phosphate powders. SOLD ONLY IN CANS. ROYAL BAKING POWDER CO., new-d&w 106 Wall St., New York.
